

PARKSCAPE BIN ENCLOSURE

TECHNICAL SPECIFICATIONS

ADROIT.

YOUR PROJECT. YOUR WAY. BE ADROIT.

PRIMARY APPLICATION

A timeless proven design, Parkscape complements and blends with its surrounds. ParkScape's SlamLock means quick easy emptying with no forgetting to relock.

State of the art automated bending and welding, combined with quality workmanship and our standard 'shipping bar' mean your ParkScape is built square, ship's square and is easy to install square. This means the door will always close perfectly after installation.

Available in over 120 different combinations of lattice pattern and cowling in any colour; you can customise at an off the shelf price. Please contact us to get a full range of options. Let us help you do it your way.

FEATURES

- Massive range. Mix & match to customise your project's look, or seamlessly blend with existing assets.
- SlamLock. Open it with a key, empty and replace the bin, then slam the door locked shut. No relocking and no error - fast & easy.
- Military-level build, computerised cutting, bending and processing means a strong, true, high quality product you can rely on.
- High quality baked powder coat in any colour or 4 different stainless steel options to suit your application.
- Optional leveling leg kits make installation a breeze and ensures that if the substrate shifts the surround can be re-levelled..
- Optional laser cut logo plates and laser engraving mean the surrounds can be customised with logos and pictures/signs.
- Three standard cowlings available:
 - > Closed: Closed is available with between one and four openings as specified. (Standard closed cowling format is two-way opening)
 - > Open or
 - > Recycling.

OPTIONS

- If you can think it, we can do it with ParkScape!
